Introduction

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ
اللَّهُمَّ صَلِّ عَلَى مُحَمَّدٍ وَعَلَى آلِ مُحَمَّدٍ

Good on you for reading this. I compiled this document due to the fact that I would constantly lose track and lose touch of various Hadiths on sunnah.com which one can use to defend or attack a certain sect. Moreover I noticed that this folder was growing exceptionally large and looked useful so I said Bismillah and worked harder to increase this doc for the benefit of the Rawafidh.

Some points I'd like to make before you get started; there will be some Hadiths often in Jami' at Tirmidhi where the Hadith is apparently graded "Da'if" or "weak" by Darussalam. Considering this is a company and not a scholar, they will make mistakes most of the time when grading such Hadiths, whether this is due to their Nasibi intentions or just pure ignorance. These gradings are to be taken with a grain of salt and rejected like the first three tyrants. Another point is that you might see some Hadiths which are graded Da'if and will actually be weak. I have included some of these weak Hadiths as it can be corroborated by other authentic chains essentially meaning that whilst the chain of narrators may be weak in this chain, the Hadith is not to be rejected as it can possibly be proved through alternate better chains. Additionally, it may be possible that I have misplaced certain Hadiths with the wrong topic. I have made sure to keep this possibility to a minimal. Throughout the compilation process of this doc, I have tried to get every reference for each topic however I am no infallible, there will be Hadiths which I have missed but again I have worked tirelessly to keep this to a minimal. Sometimes references can only be seen in Arabic as this website does tend to censor things like their teacher Bukhari, therefore make sure you read the Arabic and the English text. The final point that I would like to mention is that there will be Hadiths for topics which you might not understand but I will thus feel free to contact for further details.

Enjoy this folder but do not go overboard and Allah knows best.
